THE JAPANESE NATIONAL PROPERTY SYSTEM AND CURRENT CONDITIONS

日本の国有財産制度と現状

I National Property System

1. Scope of National Property

The properties owned by the national government encompass a spectrum ranging from cash and deposits to real estate such as land and buildings, movable properties such as vessels, automobiles, and aircraft, claims such as accounts receivable and loans receivable, intellectual property rights such as copyright and patent right, and usufructs such as superficies and mining rights. (These are national properties in the broadly sense of the term.) However, in this report national properties refer to those that are stipulated in Article 2 of the National Property Act (Act No. 73 of 1948) and Article 4 of the Supplementary Provisions. (These are national properties in the narrow sense of the term.) They are indicated in Table 1.

2. Classification and Type of National Property

National properties are classified into two groups (Article 3 of the National Property Act): administrative properties that are used by the national government for administrative purposes, and non-administrative properties, or properties other than administrative properties. Administrative properties are further divided into four groups depending on their use.

(1) Administrative properties

A. Official property

Properties used by the national government for its duties and projects or as houses for its officials, or properties that the government has decided to use for the above purposes (Examples; government buildings, housing for national government employees)

B. Public property

Properties that are directly used for public purposes by the national government or properties that the government has decided to use for such purposes (Examples: parks, roads, beach sites)

C. Imperial property

Properties that the National government has provided for use by the imperial household, or properties that the government has decided to provide for imperial household use (Examples: the Imperial Palace, imperial villas, imperial tombs)

D. National corporate property

Properties that have been provided to government enterprises (national forestry projects) or used as housing for workers of the enterprises, or properties that the government has decided to use for the above purposes

第1 国有財産の制度

1. 国有財産とは

国の所有する財産には、現金や預金のほか、土地・建物等の不動産、船舶・自動車・航空機等の動産、売払代金・貸付金等の債権、著作権・特許権等の知的財産権、地上権・鉱業権等の用益物権等多種多様なものがある(広義の国有財産)が、ここにいう国有財産とは、国有財産法(昭和23年法律第73号)第2条及び附則第4条に規定されている財産(狭義の国有財産)、すなわち第1表に示すものをいう。

2. 国有財産の分類及び種類

国有財産は、国の行政の用に供するため所有する行政財産と、それ以外の普通財産とに分類され、行政財産は、さらに用途によって4つの種類に分けられている(国有財産法第3条)。

(1) 行政財産

イ. 公用財産

国において国の事務、事業又はその職員の住居の用に 供し、又は供するものと決定した財産(例えば、庁舎、 国家公務員宿舎)

口. 公共用財産

国において直接公共の用に供し、又は供するものと決定した財産(例えば、公園、道路、海浜地)

ハ・皇室用財産

国において皇室の用に供し、又は供するものと決定した財産(例えば、皇居、御所、御用邸、陵墓)

二、企業用財産

国において国の企業(国有林野事業)又はその企業に 従事する職員の住居の用に供し、又は供するものと決定 した財産

(2) Non-administrative properties

Non-administrative properties refer to all national properties other than administrative properties that are not directly used for any specific administrative purposes. These include properties with various characteristics.

These properties can be roughly divided into those that have characteristics similar to administrative properties and those that do not have such characteristics. Among the former properties are i) Government financing shares acquired by making investment in money or in kind based on the provisions of special laws in order to achieve a policy objective and ii) Camps, airfields, and port facilities, etc. that are provided to the US armed forces under treaties. Unlike ordinary non-administrative properties, these cannot be disposed of at the discretion of the government. The latter properties are those that need to be efficiently and properly managed and disposed of in response to the social demands of the time.

Some of the non-administrative properties are those received by the government in lieu of monetary inheritance tax payments and some others are those that have been rendered unnecessary as administrative properties.

3. Management and Disposal of National Property

(1) Management and disposal system

Managing national properties means acquiring, maintaining or preserving such properties, or using them for financial asset management such as loans, and disposing of national properties refers to the sell-off, exchanging, beneficial transfer or entrustment of such properties. Management and disposal systems differ between administrative properties and non-administrative properties.

While administrative properties are managed by the head of a ministry or agency (Article 5 of the National Property Act), said ministry or agency head is not allowed to directly dispose of the properties, sell them, rent them, or establish private rights thereon (Article 18 of the National Property Act) unless otherwise stipulated in the National Property Act. (For example, in cases where a local government provides the relevant property as a facility for a railway or other public transport service that manages its own affairs and establishes superficies on said property, and where part of the property such as a government building is leased to an entity unrelated to the national government when the property has extra space).

On the other hand, non-administrative properties are in principle managed and disposed of by the Minister of Finance (Article 6 of the National Property Act) and he or she may sell them, rent them, or establish private rights on the properties in question (Article 20 of the National Property Act).

(2) 普通財産

普通財産とは、行政財産以外の一切の国有財産をいい、 原則として特定の行政目的に直接供されることのないもの であり、その内容は様々な性格の財産から構成されている。

これらの財産は、行政財産に近い性格を有する財産とそれ以外の財産に大別できる。前者の例としては、イ. 国が政策目的を達成するために特別の法律の規定に基づいて行った現金出資又は現物出資により取得した出資による権利、ロ. アメリカ合衆国の軍隊に条約に基づき提供するキャンプ地、飛行場、港湾施設等があり、通常の普通財産のように自由に処分することはできないものである。後者の財産は、その時々の社会的要請に即応して効率的、かつ、適正に管理又は処分を行うべき性質の財産である。

また、取得の経緯からみると、相続税法等の規定により租税物納として金銭に代えて国庫に納付され普通財産となったもの、又は行政財産が不要となって本来の行政目的に供されなくなった場合、すなわち用途廃止されて普通財産となったもの等がある。

3. 国有財産の管理及び処分

(1) 管理処分の仕組み

国有財産の管理とは、これを取得し、維持保存し、又は貸付け等の運用をすることであり、処分とは、売払い、交換、譲与、信託等をすることをいう。これら管理処分の仕組みは、行政財産と普通財産とでは異なっている。

行政財産は各省各庁の長が管理するが(国有財産法第5条)、国有財産法に定める場合(例えば、地方公共団体等がその経営する鉄道等の施設の用に供する場合において、これらの者のために地上権を設定する場合、庁舎等の一部に余裕がある場合で、当該余裕部分を国以外の者に貸ける場合等)のほか、これを売払い、貸付け、又はこれに私権を設定することはできないことになっている(国有財産法第18条)。

これに対し、普通財産は原則として財務大臣が管理処分し(国有財産法第6条)、これを売払い、貸付け、又はこれに私権を設定することも可能である(国有財産法第20条)。

When administrative property becomes unnecessary, the ministry or agency head must abolish the use of the property, convert it into non-administrative property, and hand it over to the Minister of Finance (Article 8 of the National Property Act). However, with regard to properties not fit to be handed over to the Minister of Finance or properties whose use is to be abolished for the purpose of exchange or demolition, and certain properties belonging to 13 Special Accounts including the Social Infrastructure Development Special Account, the head of the ministry or agency that has jurisdiction over the properties in question may manage and dispose of the properties even after they have been abolished.

In addition to the management and disposal of non-administrative properties, the Minister of Finance is also in charge of the general overview of management and disposal of national properties (Article 7 of the National Property Act). The general overview of national properties refers to the establishment of national property systems, the unification of management and disposal operations, the explanation of increases or decreases in the extent of national properties, the present value of national properties and the actual state thereof, and the provision of the coordination necessary for the management and disposal of national properties, in order to facilitate the proper management and disposal of national properties (Article 4 of the National Property Act).

The following are specific examples of administrative work related to the general overview of national properties.

- A. Obtaining documents or reports concerning national properties, conducting on-the-spot inspection and seeking necessary measures such as alteration of use, abolition of use, and transfer of jurisdiction (Article 10 of the National Property Act).
- B. Consultation pertaining to transfer of jurisdiction (Article 12 of the same law).
- C. Consultation pertaining to acquisition, disposal, or other matters (Article 14 of the same law).

It should be noted that some of the administrative work duties related to the general overview conducted by the Minister of Finance or the head of each ministry and agency may be delegated to the head of a department or division subordinate to the relevant ministry or agency (Paragraphs 1 and 2, Article 9 of the National Property Act). Meanwhile, some of the administrative duties related to the management and disposal of national properties may be delegated to the relevant prefectures, cities, towns or villages (Paragraphs 3 and 4, Article 9 of the National Property Act).

行政財産が不要となった場合は、各省各庁の長は、その 用途を廃止して普通財産とし、これを財務大臣に引き継が なければならない(国有財産法第8条)。もっとも、交換 や取こわしの目的で用途廃止するもの等引継不適当の財産 や社会資本整備事業特別会計等13の特別会計に属する財 産は、用途廃止後もそのまま所管の各省各庁の長が、管理 処分することができることとなっている。

財務大臣は、普通財産を管理処分するとともに、国有財産の管理処分の総括を行っている(国有財産法第7条)。 国有財産の総括とは、国有財産の適正な方法による管理処分を行うため、国有財産の制度を整え、その管理処分の事務を統一し、その増減、現在額及び現状を明らかにし、並びにその管理処分について、必要な調整をすることをいう(国有財産法第4条)。

この国有財産の総括に関する事務の具体的な内容としては、イ. 国有財産に関する資料若しくは報告を求め、実地監査をし、又は用途の変更、用途の廃止、所管換その他必要な措置を求めること(国有財産法第 10 条)ロ. 所管換の協議を受けること(国有財産法第 12 条)ハ. 取得、処分等の協議を受けること(国有財産法第 14 条)等がある。

なお、財務大臣の行う総括事務や各省各庁の長の行う管理処分の事務は、その一部を下部機関である部局等の長に委任できることとなっている(国有財産法第9条第1項及び第2項)。また、管理処分の事務の一部は、都道府県又は市町村が行うことができることとなっている(国有財産法第9条第3項及び第4項)。

(2) National property register

A. In order to carry out proper and efficient management and disposal of national properties, it is necessary to have a correct understanding of the current state of national properties. To this end, each ministry and agency and its subordinate departments and agencies are required to maintain a national property register in order to keep track of the current state of national properties (Article 32 of the National Property Act).

The national property register is required in order to record their category (land, trees/bamboo, buildings, structures, etc.), application (land for buildings, land for housing, unutilized fields, etc. in the case of land and office buildings, residents, etc. in the case of buildings), quantity, price, date of acquisition or loss and the reason therefor and other necessary matters. Therefore, when any changes occur with regard to the specified matters for reasons such as the acquisition or disposal of properties as well as transfer of jurisdiction, the changes shall be recorded for adjustment.

Although national properties must in principle be recorded in the national property register, there are properties that are exempted from such obligation (Article 38 of the National Property Act). The exempted properties are:

- a. Public properties other than those provided or scheduled for provision for public use as parks and public squares (e.g. roads, rivers, beach sites, etc.).
- Non-administrative properties which belong to general accounts and which are on lease for use as prefectural or municipal roads.

It should be noted that these properties must be recorded on management ledgers compiled by the competent ministers in accordance with the relevant laws and regulations concerning property management.

With regard to national properties not recorded in the national property register (so-called unattended properties), recording must be made once their presence and status becomes known.

B. The value that is newly registered in the national property register is basically the acquisition value. The value on the register is assessed (herein after referred to as "price revision") every fiscal year based on the actual value as of March 31 of the relevant year under Article 23 of the Order for Enforcement of the National Property Act, in order to reflect the changes in market value that may occur after the acquisition. The revision is based on that assessment. The values of properties belonging to government enterprises are excepted.

(2) 国有財産台帳

イ. 国有財産の管理処分を適正、かつ、効率的に行うためには、国有財産の現況を正確に把握することが必要である。そのため各省各庁又はその下部機関の部局等は、国有財産台帳を備えて、その所管する財産の現況を記録することとされている(国有財産法第32条)。

この国有財産台帳は、財産の区分(土地、立木竹、建物、工作物等の区分をいう。)、種目(土地における敷地、宅地、原野等の区別、建物における事務所建、住宅建等の区別をいう。)、所在、数量、価格、得喪変更の年月日及び事由、その他必要な事項を記録することになっている。したがって、国有財産の取得、所管換、処分その他の事由によって、これに変動が生じた場合には、その増減を台帳に記録して整理を行っている。

国有財産は、原則として国有財産台帳に記録されるが、例外として記録されないものがある(国有財産法第 38 条)。これは、(イ)公共用財産のうち公園、広場として公共の用に供し、又は供するものと決定したもの以外のもの(すなわち、道路、河川、海浜地等)と、(ロ)一般会計に属する普通財産のうち都道府県道又は市町村道の用に供するため貸し付けたものである。

なお、これらの財産については、所管大臣がそれぞれの管理法規により、管理を行うための公共物の管理台帳を作成することとなっている。

また、このほか、実際上国有財産台帳に記録されていない国有財産(いわゆる脱落地)があるが、これらについては、実態を把握する都度、逐次台帳に記録することとしている。

ロ. 国有財産台帳に新たに登録される価格は、原則として取得価格である。この台帳価格については、国の企業に属するもの等を除き、その後の価格変動等に伴う修正を行うため、国有財産法施行令第 23 条の規定に基づき、毎会計年度、当該年度末の現況において評価替(以下、「価格改定」という。)を行うこととしている。

- (Note) 1. Previously, price revisions were made every five years with regard to properties other than listed securities and government investments, etc. However, following an amendment to the Order for Enforcement of the National Property Act these properties also have been subject to price revision at the end of each fiscal year since March 31, 2007. This is so their values as registered in the national property register reflect actual values more accurately.
- (Note) 2. Valuation method for price revision
 - *Land: The land price for inheritance tax calculation should in principle be used.
 - *Buildings, structures, etc.: Cumulative total depreciation since the previous revision (acquisition) of value registered in the registry to the time of valuation.
 - *Listed securities: Market price
 - *Government investments, etc.: Net assets amount of each government corporation
- (Note) 3. Price revision regarding properties belonging to government enterprises (national forestry projects was made on April 1, 1976, in accordance with Article 81 of the Order of Enforcement of the Act on Special Accounts.
- C. The national property register has been digitalized with the implementation of the National Property Comprehensive Information Management System in January 2010.

(3) Reports on the changes in the value of national properties and their current value, and statement of their total value

With regard to national properties, the head of each ministry and agency is required to tally the increase/decrease of national properties in the national property register for every fiscal year and prepare reports on changes in the value of national properties and their current state. In addition, with regard to national properties that have been provided free of charge, he or she is required to submit a report on the current state of the total value of national properties, to be provided free of charge.

The head of each ministry and agency is required to send such reports to the Minister of Finance by the end of July of the following year and, based on the report, the Minister of Finance is required to prepare a statement of changes in the value of national properties, their current value, and total value of national properties, to be provided free of charge (Articles 33 and 36 of the National Property Act).

The Minister of Finance is to send these statements to the Cabinet Office and, after having the statements audited by the Board of Audit, the Cabinet Office is to pass the statements on to the ordinary session of the Diet to be convened the following year (Articles 34 and 37 of the National Property Act).

In response to a request from the Diet for an "early settlement of accounts," the statements are reported to the Diet about two months earlier than is stipulated in the National Property Act, starting with the account settlement for fiscal 2003.

- (注) 1. 従来、上場有価証券、政府出資等以外は 5 年ごとに価格改定が行われていたが、国有財産台帳価格をより現状に即したものとするため、国有財産法施行令の改正により、平成 24 年 3 月 31 日から毎会計年度末において価格改定が行われることとなっている。
 - 2. 価格改定の評価方法
 - ・土地…原則として、相続税評価方式
 - 建物、工作物等…前改定(取得)時台帳価格ー前 改定(取得)時から評価時までの減価償却累計 額
 - · 上場有価証券···市場価格
 - ・政府出資等…出資法人ごとの純資産額
 - 3. 国の企業(国有林野事業)に属する財産については、特別会計に関する法律施行令第 81 条の定めるところにより、昭和 51 年 4 月 1 日に価格改定が行われている。
- ハ. 平成 22 年 1 月からの国有財産総合情報管理システム の実施に伴い国有財産台帳は電子化されている。

(3) 国有財産増減及び現在額報告書等、同総計算書等

各省各庁の長は、その所管する国有財産について、国有財産 台帳に記録された毎会計年度間における増減及び当該年度末 における現在額を集計し、国有財産増減及び現在額報告書を 作成することとなっている。また、その所管する国有財産の うち、国有財産法の規定により無償貸付をした財産について 国有財産無償貸付状況報告書を作成することとなっている。

各省各庁の長はこれらの報告書を、翌年度 7 月末までに財務大臣に送付し、財務大臣はこれらに基づき国有財産増減及び現在額総計算書及び国有財産無償貸付状況総計算書を作成することとされている(国有財産法第33条及び第36条)。

財務大臣は、この両総計算書を内閣に送付し、内閣はこれらを会計検査院に送付して検査を受けたうえ、翌年度開会の国会の常会に報告することが常例となっている(国有財産法第34条及び第37条)。

平成 15 年度決算からは、国会からの「決算の早期化」の 要請を受けて、両総計算書を国有財産法の規定よりも 2 ヶ月 程度早く国会に報告することとされたところである。

- (Note) 1. The statistical figures on this report, such as the current value of national properties, are based on the statements of changes in the value of national properties, and their current total value and the current state of the total value of national properties are provided free of charge.

6. Changes by Cause

Causes of change in the value of national properties can be roughly divided into transfer from the state to an entity outside the state and transfer within the state.

If we refer to the former as "external transfers" and the latter as "internal transfers," purchases, sell-offs and investment, etc. are hence classified as external transfers, while transfers of jurisdiction (transferring the jurisdiction of a ministry or agency head over national property) and affiliation transfers (transferring properties belonging to a department to another department within the same jurisdiction) are classified as internal transfers.

"External transfers" that cause an increase in the value of national properties due to external transfer are divided into those requiring expenditure (purchase, new construction, etc.) and those not requiring expenditure (tax payment in kind, etc.). External transfers that cause a decrease in the value of national properties are broken down into those generating revenue (sell-off, collection of investment, etc.) and those not generating revenue (beneficial transfer, demolition, etc.).

"Internal transfers" can be divided into changes due to adjustment, changes due to streamlining, and changes resulting from the price revision.

A. Changes due to adjustment

Changes due to adjustments refer to changes caused by internal adjustments for the purpose of improving the efficiency of the management of national properties, such as transfers of jurisdiction, affiliation transfers, handovers/receipts (whereby administrative properties whose use has been abolished are "handed over" by the ministries and agencies of jurisdiction and "accepted" by the Ministry of Finance), rationalization exchanges, etc. (transfer of properties to other accounts within the same department without change of use (including division of properties)).

B. Changes due to streamlining

Changes due to streamlining refer to changes made as a result of actual measurements (in the case of land, buildings and structures), actual surveys (in the case of trees and bamboo), corrections of mistakes, discovery of unreported items, etc.

C. Changes resulting from the price revision

Changes resulting from price revisions in this report reflect the revisions that took effect as of March 31, 2012.

6. 事由別増減額

国有財産の増減を事由別に大別すると、国と国以外の者との間の異動と、国の内部における異動とに分けることができる。

前者を「対外的異動」、後者を「対内的異動」とすれば、 購入、売払、出資等は対外的異動であり、所管換(各省各庁 の長の間において国有財産の所管を移すことをいう。)、所 属替(同一所管内において二以上の部局等がある場合に、一 の部局等に所属する国有財産を他の部局等の所属に移すこと をいう。)等は対内的異動である。

「対外的異動」には、増加については、歳出を伴うもの (購入、新築、新設等)と歳出を伴わないもの(租税物納 等)とがあり、減少については、歳入を伴うもの(売払、出 資金回収等)と歳入を伴わないもの(譲与、取こわし等)と がある。

「対内的異動」は、調整上の増減、整理上の増減及び価格 改定上の増減に分けることができる。

イ、調整上の増減

所管換、所属替、引継、引受(引継、引受とは、各省各庁で行政財産の用途を廃止し、当該財産を財務省へ引き継ぎ、財務省がこれを引き受けることをいう。)、整理替(同一部局内において、用途変更を伴わないで財産を所属口座に異動(分割を含む。)があることをいう。)等国有財産の管理を効率化するため国の内部で行う調整に伴う増減である。

The extents of increases and decreases do not correspond perfectly with each other with regard to transfers of jurisdiction and affiliation transfers. This is because transfers between general accounts and special accounts and between special accounts and other special accounts should in principle be treated, in accordance with Article 15 of the National Property Act, as paid transfers and the ministry, agency or department handing over the relevant property makes a deduction adjustment based on the value recorded in the registry, while the ministry, agency or department accepting the property makes an addition adjustment based on market value.

In fiscal 2009, the value recorded in the National Property Registry increased over the previous fiscal year including 4.4824 trillion yen due to investment (government investment, etc.) and 3.1783 trillion yen due to price revisions (government investment, etc.).

The decrease in fiscal 2010 as compared to the previous fiscal year included 6.9028 trillion yen doe to price revisions (lands, etc.), and 2.0593 trillion yen due to capital deduction (government investment, etc.).

The amount in FY2011 has increased from the previous year due the price revision (government investment, etc.) (3.1035 trillion yen) and investment (cash) (government investment, etc.) (3.1558 yen), etc.

IV Key Points Concerning Government Buildings

1. Key Points Concerning Government Buildings

(1) Definition of government buildings

Government buildings refer to properties used for administrative work of the national government and those used by government enterprises and corporations, including government offices used by ministries and agencies and as jails, airports, and facilities of the Self-Defense Forces. Although government buildings are primarily managed by individual ministries and agencies, the Ministry of Finance, representing the national government as a whole, is promoting efforts aimed at ensuring their efficient improvement and use.

(Note) Government buildings do not include housing for national government employees, the Imperial Palace, roads, forests, undeveloped fields, rivers, etc.

(2) Promotion of effective improvement of government offices

In order to promote efficient improvement of government offices, the Ministry of Finance, as the ministry in charge of overseeing national properties, examines improvement requests from individual ministries, judges the necessity of the requested improvement and makes appropriate adjustments so as to reflect the results in the budget for government office improvement each fiscal year.

In doing so, from the viewpoint of making effective use of national properties, the Ministry of Finance looks into the possibilities of how to make use of existing government offices. It also makes sure to select the most cost-effective ways of securing offices by comparing the costs of constructing new buildings and leasing existing private-sector buildings.

When replacing government buildings, the ministry or agency works on improving buildings through PFIs in order to utilize the creative ingenuity of the private sector.

(3) Promotion of efficient use of existing government offices

In order to promote the efficient use of government offices, the Ministry of Finance keeps track of the actual status of individual ministries and agencies' use of offices through, for example, field inspections, and formulates plans for cross-ministerial adjustments of office spaces based on the special act on the adjustment of use of government offices, etc. after seeking recommendations from the Fiscal System Council.

It should be noted that as an institutional measure to promote the efficient use of government offices, a revision of the National Property Act in April 2006 has made it possible to lease idle office spaces and premises of government office buildings to the private sector within limits that do not undermine the administrative use or purposes of the property concerned.

第4 国の庁舎等の概況

1. 国の庁舎等の概要

(1) 国の庁舎等とは

国の庁舎等とは、庁舎、刑務所、飛行場及び自衛隊の施設など国の 事務、事業又は企業の用に供されている財産であり、一義的には各省 各庁が管理しているが、財務省が国全体の立場で、効率的な整備及び 効率的な使用を推進している。

- (注)庁舎等には、国家公務員宿舎、森林原野、皇居、道路及び河川 等は含まない。
- (2) 庁舎等の効率的な整備の推進

財務省では、庁舎等の効率的な整備を推進するため、各省各庁が新たに庁舎等を整備するに当たって、国有財産の総括大臣の立場から、その必要性等を審査・調整し、毎年度の庁舎等の整備予算に反映させるよう努めている。

審査・調整に当たっては、国有財産の有効活用を図る観点から、既存庁舎の活用の可能性等を確認するとともに、建替えと民間借受けのコスト比較を行い、最も効率的な調達方法を選択することとしている。なお、庁舎の建替えに当たっては、各省各庁において、民間の創意工夫を活用するためにPFIによる庁舎整備に取り組んでいるところである。

(3) 既存庁舎等の効率的な使用の推進

財務省では、既存庁舎等の効率的な使用を推進するため、実地監査などを通じて、各省各庁の使用実態を把握し、「国の庁舎等の使用調整等に関する特別措置法」に基づき財政制度等審議会に付議のうえ、各省横断的な入替調整を行うための庁舎等使用調整計画を策定している。

なお、平成 18 年 4 月の国有財産法の改正では、庁舎等の床面積又は 敷地に余裕が生じている場合には、行政上の用途又は目的を妨げない 限度で、当該余裕部分を民間に貸し付けることも可能とするなど、既 存庁舎等の効率的な使用を推進するための制度整備が図られている。

2. System for the Special National Property Consolidation Plan

(1) Special National Property Consolidation Plan

The Special National Property Consolidation Plan is a scheme under which the Minister of Finance formulates plans for the acquisition and disposal of national properties based on the concept of "scrap and build," whereby government offices are consolidated or relocated or improved in order to enhance their earthquake resistance (Article 5 of the special act on the adjustment of use of government offices, etc.)

In establishing the Special National Property Consolidation Plan, the Minister of Finance examines requests concerning the consolidation of government offices submitted from ministries and agencies, and makes judgment concerning the necessity, urgency, conditions of scale and location, and the appropriateness of potential disposal of the properties.

(2) Abolition of the Specified National Property Improvement Special Account

The Specified National Property Improvement Special Account was abolished at the end of fiscal 2009 as part of the Special Account Reform. As a consequence, a Specified National Property Improvement Account is established in the Fiscal Investment and Loan Special Account as a temporary measure in order to account for the relevant undertakings that were not completed at the end of fiscal 2009 starting from fiscal 2010 until the fiscal year in which they are completed. The residual properties at the completion of the undertakings will be taken over by the general account.

The new undertakings after fiscal 2010 will be managed in the general account.

2. 特定国有財産整備計画制度

(1) 特定国有財産整備計画とは

特定国有財産整備計画は、庁舎等を集約立体化・移転再配置する場合又は地震防災機能を発揮するために必要な合同庁舎を整備する場合に、スクラップ・アンド・ビルドの考え方に基づき、財務大臣が定める国有財産の取得及び処分に関する計画である(国の庁舎等の使用調整等に関する特別措置法(庁舎法)第5条)。

特定国有財産整備計画の策定に当たっては、財務大臣が各省各庁から提出された庁舎等の整備に関する要求書について、その整備の必要性・緊要性、規模・立地条件、処分予定財産の適否等の審査を行うこととしている。

(2) 特定国有財産整備特別会計の廃止

特定国有財産整備特別会計については、特別会計改革の一環により平成21年度末をもって廃止され、平成21年度末までに完了していない事業の経理を行うため、平成22年度から当該事業が終了する年度までの間の経過措置として、財政投融資特別会計に特定国有財産整備勘定が設けられており、事業完了後の残余財産は一般会計に承継予定である。

なお、平成22年度以降の新規事業は、一般会計で経理されている。

V Outline of Housing for National Government Employees

Housing for national government employees is set up based on the "National Government Employees' Housing Act" (Act No. 117 of 1949) in order to "ensure efficient performance of duties by national government officials, thereby facilitating the smooth implementation of government operations and services."

Housing for National Government Employees refers to residential housing set up by the national government for its officials and their families, incidental structures and facilities and land. These do not include lodging facilities temporarily set up within training institutes, etc., temporary hostels set up at construction sites, dormitories for Diet members, and employee housing set up by independent administrative agencies, etc.

Residences for national government officials are set up based on the residence setup plan established by the Minister of Finance. Residences can be set up either as administrative properties through the construction, purchase, exchange, donation, or conversion (e.g. use of a facilities originally built as government office as housing), or properties offered by entities other than the government.

Housing for national government employees is in principle provided by the Minister of Finance. However, with regard to ministry-by-ministry or agency-by-agency housing (housing for national government employees that is constructed solely for the purpose of leasing to employees of the same ministry or agency; with the same applying hereafter), in cases where a large number of housing facilities need to be constructed at the same time, in cases of a decision by the Minister of Finance under other special circumstances, etc., the head of the ministry or agency provides such housing.

As for the maintenance and management of housing for national government employees, the Minister of Finance is in charge in the case of joint residences (national government official residences other than ministry-by-ministry or agency-by-agency residences) and the head of the ministry or agency is in charge in the case of ministry-by-ministry or agency-by-agency residences.

As of September 1, 2012, the total number of housing units for national government employees stood at about 201,000.

第5 国家公務員宿舎の概況

国家公務員宿舎は、「国家公務員等の職務の能率的な遂行を確保し、もって 国等の事務及び事業の円滑な運営に資すること」を目的とした「国家公務員宿 舎法」(昭和24年法律第117号)に基づき、設置されているものである。

国家公務員宿舎とは、職員及びその家族を居住させるために、国が設置する 居住用の家屋及びこれに附帯する工作物その他の施設並びにこれらに供する土 地をいい、研修所や講習所等に一時宿泊のために設けられている宿泊施設、公 共事業関係の現場に設けられている仮設物的な合宿所、国会議員の議員宿舎、 独立行政法人等の職員宿舎等は含まれない。

国家公務員宿舎は、財務大臣が定める宿舎設置計画に基づいて設置される。 その方法としては、建設、購入、交換、寄付又は転用(例えば、庁舎を用途変 更によって国家公務員宿舎とすること等をいう。)により行政財産として設置 するものと、国以外の者の所有する財産を借り受けることにより設置するもの がある。

国家公務員宿舎の設置は、原則として財務大臣が行うこととなっているが、 省庁別宿舎(同一の各省各庁に所属する職員のみに貸与する目的で設置される 国家公務員宿舎をいう。以下、同じ。)で、一時に多数の宿舎を設置する必要 がある場合その他の特別の事情がある場合で財務大臣が指定する場合等は、当 該各省各庁の長が行うこととなっている。

また、国家公務員宿舎の維持及び管理は、合同宿舎(省庁別宿舎以外の国家 公務員宿舎をいう。)については財務大臣が、省庁別宿舎については当該国家 公務員宿舎の貸与を受けるべき職員の所属する各省各庁の長が行うこととなっ ている。

なお、平成 24 年9月1日現在における国家公務員宿舎の総戸数は約 20 万1 千戸となっている。

VI Current Conditions of Non-Administrative Properties

1. Current Value

As shown in Table 22, the current value of non-administrative properties belonging to the general accounts under the jurisdiction of the Ministry of Finance (properties under the jurisdiction of the Minister of Finance as prescribed by Article 6 of the National Property Act, with the same applying in 6 below) stood at 42.1588 trillion yen as of the end of fiscal 2011, accounting for 41.0% of the total value of national properties, which stood at 102.8543 trillion yen.

As stated earlier in this report, non-administrative properties refer to all national properties other than administrative properties. They can be roughly divided into properties with characteristics similar to administrative properties (e.g., financing shares and properties offered to the American armed forces) and other properties (unused national land etc.). The former properties cannot be quickly disposed of, but the latter should be efficiently and appropriately managed or disposed of in response to occasional social needs.

2. Changes in the Value in FY2011

In fiscal 2011, the total increase in the value of non-administrative properties came to 3.6193 trillion yen and the total decrease to 2.1183 trillion yen, resulting in a net decrease of 1.5010 trillion yen. Table 22 shows changes in the value of non-administrative properties by category (land, buildings, government investment, etc.).

Table 23 shows changes in the value of non-administrative properties after changes resulting from the price revision are deducted. The total increase in fiscal 2011 came to 2.3549 trillion yen and the total decrease to 1.1112 trillion yen, resulting in a net decrease of 1.2437 trillion yen. Changes resulting from the price revision are as shown in Table 24.

Changes in the value of non-administrative properties can also be divided into "external transfers." or transfers from the state to entities other than the state, and "internal transfers," or transfers within the state. For example, non-administrative properties increase through "external transfers" when the government receives tax in kind in lieu of monetary inheritance tax payments, when properties in abeyance are attributed to the state coffers, or when the government acquires financing shares or subscription certificates through investment in special corporations. Nonadministrative properties decrease through "external transfers" when the government carries out sell-offs, beneficial transfers, or makes investments in kind (land, buildings, structures, etc.). Non-administrative properties also increase through "internal transfers" when, for instance, the Ministry of Finance takes over properties that have outlived their usefulness as administrative properties and thus have become non-administrative properties. Non-administrative properties decrease through "internal transfers" when, for instance, jurisdiction over national properties is transferred from one ministry or agency to another ministry or agency in order to provide them for administrative use. Table 25 shows transfers that took place in fiscal 2011.

第6 財務省所管一般会計所属普通財産の現状

1. 現在額

平成23年度末現在の財務省所管一般会計所属の普通財産(国有財産 法第6条に規定する財務大臣の所管に係るもの。以下第6において同じ 。)は、第22表のとおり42兆1,588億円であり、国有財産総額102兆 8,543億円の41.0%を占める。

普通財産は、既に述べたように、行政財産以外の一切の国有財産をいい、行政財産に近い性格を有する財産(出資による権利、アメリカ合衆国の軍隊への提供地等)及びそれ以外の財産(未利用国有地等)に大別される。前者は、直ちに処分することができない財産であるが、後者は、その時々の社会的要請に即応し、効率的かつ適正に、管理又は処分を行うべき性質の財産である。

2. 平成23年度中の増減

平成23年度中の総増加額は3兆6,193億円、総減少額は2兆1,183億円 であり、差引き1兆5,010億円増加した。これを土地、建物、政府出資 等の区分別にみると、第22表のとおりである。

また、価格改定の結果による増減を差し引いた増減額は第23表のとおりであり、平成23年度中の総増加額は2兆3,549億円、総減少額は1兆1,112億円であり、差引き1兆2,437億円増加した。なお、価格改定による増減額は、第24表のとおりである。

普通財産の増減についても、国と国以外の者との間の異動である「対外的異動」及び国の内部における異動である「対内的異動」に分けることができる。例えば、「対外的異動」で普通財産が増加する場合として、相続税法の規定により金銭に代えて財産が物納されたとき、相続人不存在財産が民法の規定により国庫に帰属したとき、特殊法人等に対する出資により出資による権利又は出資証券等を取得したとき等が、また、減少する場合として、売払い、譲与、現物出資(土地、建物、工作物等)が行われたとき等が、それぞれ挙げられる。他方、「対内的異動」により増加する場合として、各省各庁において行政財産として使用されていた財産が行政目的の用に供されなくなり、用途廃止されて普通財産となったものを財務省が引き受けたとき等が、また、減少する場合として、行政目的の用に供するため各省各庁へ所管換したとき等が、それぞれ挙げられる。平成23年度中の異動状況を整理すると、第25表のとおりである。

3. Current Conditions of Management and Disposal

Disposals of land and buildings of non-administrative properties that took place in fiscal 2011 and their status as of the end of the year are as follows.

Properties are in principle sold at market value. However, some of the non-administrative properties are sold to public corporations, etc. after their market value had been reduced by a certain percentage based on the provisions of the Act on Special Measures Concerning National Property and other relevant laws. Among the properties sold at less than market value were four community facilities worth 1.9 billion yen, 14 school facilities worth 200 million yen and 2 public housing facilities worth 900 million yen.

As of the end of fiscal 2011, the number of unused national land lots stood at 3,628 and their total value based on registered prices stood at 480.0 billion yen.

The results of disposal of unused national land are available on the Ministry of Finance's website

(http://www.mof.go.jp/national_property/summary/property_audit/non_utilized _land/fy2011/index.htm), etc.

- (Note 1) Table 35 shows changes in the number of unused national land lots, Table 36 shows the results of disposal, and Table 37 shows unused national land owned by the government as of the end of fiscal 2011.
- (Note 2) Table 38 shows changes in the acceptance of in-kind payments of real estate (land) since fiscal 2002.

(2) Current Status (acceptance, ownership, sell-off) of Unused National Land and National Properties with Rights

Table 39 shows the status of the sell-off of unused national land up to fiscal 2011. In fiscal 2011, about 1,400 lots of land were sent out for general competitive bidding, and about 500 of them were successfully bid and contracts were concluded.

In fiscal 2012, approx. 2000 general competitive biddings were conducted by making efforts to encourage bidding for unused national land lots whose immediate sell-off was difficult because the boundaries remained undecided, in addition to unused national land lots whose acquisition had not been requested by

in addition to unused national land lots whose acquisition had not been requested by local governments as of the end of fiscal 2001.

See Table 40 regarding the status of sell-offs of properties with rights, such as those involving land leaseholders.

第10 未利用国有地の有効活用と権利付財産の売却

1. 未利用国有地及び権利付財産の引受・保有・売却状況

(1) 未利用国有地の保有状況

平成23年度末現在の未利用国有地は、3,628件、台帳価格4,800億円である。

なお、未利用国有地の処分等結果については財務省のホームページ (アドレス: http://www.mof.go.jp/national_property/summary/property_audit/non_utilized_land/fy2011/index.htm) 等で公表している。

- (注1) 未利用国有地の推移については第35表を、処分等結果については第36表を、平成23年度末現在の保有状況については第37表を参照。
- (注 2) 平成 14 年度からの物納不動産 (土地) の引受状況の推移は第 38 表のとおりである。

(2) 未利用国有地及び権利付財産の売却状況

平成23年度までの未利用国有地の売却実施状況は第39表のとおりである。平成23年度においては、約1,400件の一般競争入札を実施し、このうち約500件が成約に至っている。

平成24年度においては、平成23年度末時点において地方公共団体等から取得等要望のなかった未利用国有地のほか、境界未確定地等の売却が直ちに困難な未利用国有地についても入札に付すように努め、約2,000件の一般競争入札を実施することとしている。

また、借地人等権利者がいる権利付財産の売却状況は第40表のとおりである。

2. Introduction of Various Disposal Methods

The Ministry of Finance has implemented various measures described below. However, in accordance with the "Effective Use of National Properties in the New Growth Strategy" policy, the Ministry has revised its management and disposal policy depending on characteristics of the land. Table 41 shows the measures taken by the Ministry to diversify the methods of disposal in the past.

(Note) The overview of the "Effective Use of National Properties in the New Growth Strategy" policy is shown in Table 42.

(1) Disposal method of unused national land

A. In fiscal 2002, with regard to real estate in kind (land) sent out for general competitive bidding as unused national land, the Ministry introduced the system of bidding which discloses the minimum sale price (expected price) in order to further promote disposal. This system was implemented with the purpose of securing non-tax revenues.

Also, in November 2012, with a view to reserving resources for recovery from the disaster of the Great East Japan Earthquake and promote administrative reform, it was decided to make further efforts to promote the sell-off of land by reforming the system which discloses the lowest sell-off price (predetermined price) with regard to all real estates including real estate in kind (land).

- B. In fiscal 2002, the Ministry adopted a method of trust-type disposal of those national land lots which are difficult to sell in the present form by adding value thorough subdivision and development as well as by providing access to basic utilities. Table 43 shows the actual results of these measures.
- C. In addition to these bidding systems, in 2008, the Ministry adopted two-stage general competitive bidding and district planning utilization general competitive bidding in order to reflect the planning ability..
 - (Note 1) Two-stage general competitive bidding is general competitive bidding that requires each would-be bidder to submit a land-use proposal whose content meets certain standards before bidding.

2. 多様な管理処分手法の導入

財務省ではこれまでも、以下に述べる種々の処分手法を導入してきたが、「新成長戦略における国有財産の有効活用について」を踏まえ、個々の土地の特性に応じた多様な手段を選択できるよう管理処分方針の見直しを行った。なお、これまでの取組みは第41表のとおりである。

(注)「新成長戦略における国有財産の有効活用について」 の概要は第42表のとおり。

(1) 未利用国有地の処分手法

イ 未利用国有地の一般競争入札に当たって、物納不動産(土地)に ついては、税外収入確保の観点から、更なる売却促進を図ることを 目的として、平成14年度に最低売却価格(予定価格)を公表した 入札制度を導入した。

また、平成24年11月に東日本大震災の復興財源の確保及び行政 改革を推進する観点から、物納不動産(土地)に限らず、すべての 不動産について最低売却価格(予定価格)を公表する制度改正を行 い、更なる売却促進を図ることとしている。

- ロ 平成 14 年度には、現状では売却が難しい財産について、分筆、造成、ライフライン整備等の工事を行うことにより、付加価値を高めた上で売却する処分型信託の手法も導入した。その実績は第 43 表のとおりである。
- ハ なお、こうした取組みのほか、まちづくりに配慮した土地利用を 行う観点から、平成20年度に二段階一般競争入札及び地区計画等 活用型一般競争入札を導入した。
 - (注1) 二段階一般競争入札とは、土地の利用等に関する企画提案 書の内容が一定の水準に達すると認められる参加者を選定 した上で行う一般競争入札。

(Note 2) District planning utilization general competitive bidding is general competitive bidding that occurs after consultation with local governments that have decided on district plans or other urban planning targeting a certain area, including national lands.

Previously, the Ministry conducted general competitive bidding through discussion with local governments utilizing district plans. Such examples include a former Police Academy site in Tokyo's Nakano Ward. Also in the Futaba no Sato area in Hiroshima City of Hiroshima Prefecture, the Financial Bureau took the lead to establish a committee with local organizations and formulated a district plan. The land lots will be sold subsequently.

(2) Disposal methods of national property with rights

The Ministry disposed national property with rights by recommending transactions to the rights holders. In addition, it adopted new disposal methods including the exchange of leasehold and the ownership of residential land with leasehold in fiscal 2006 and simultaneous selling off of the property with the rights holders to third parties in fiscal 2008.

In fiscal 2009, the Ministry introduced a management disposal-type trust to mainly real estate properties with leasehold in lieu of monetary payment properties, , in which the trustee sells off residential land with leasehold while keeping the property with rights in custody.

(3) Other management and disposal methods

- A. In August of 2010, in light of the "Effective Use of National Properties in the New Growth Strategy" policy, the Ministry introduced a loan system through local governments for the purpose of promoting the usage of unused national land dealing with people's welfare, such as childcare centers, nursing care facilities, etc. Subsequently, the Ministry amplified the loan system through the use of fixed-term leasehold by improving facilities for local medical services such as emergency medical care, and adopting direct loans for social welfare corporations.
 - (Note) It has been decided with multiple local governments such as Setagaya ward that 28 national land lots will be utilized as social welfare facilities, etc., by October 2012.
- B. With a view to reserving non-tax revenues and alleviating management costs, a loaning system based on fixed-term leasehold for properties which are difficult to sell off and remain unsold was established in March 2012.

(注2) 地区計画等活用型一般競争入札とは、地方公共団体と協議 し、国有地を含む一定の区域を対象に地方公共団体が地区計 画等の都市計画決定を行った上で行う一般競争入札。

従前より東京都中野区の警察大学校等跡地など、地方公共 団体と協議を行い、地区計画を活用し一般競争入札を実施し ている。また、広島県広島市の二葉の里地区においては、財 務局主体で地方公共団体等との協議会を立ち上げ地区計画 を策定しており、今後、順次処分予定である。

(2) 権利付財産の処分手法

権利付財産については、権利者に対する買受勧奨を行うことにより権利者への売却を行ってきたが、こうした取組みのほか、平成18年度には借地権と底地権の交換、平成20年度には第三者に対する権利者との同時売却といった新たな処分手法を採り入れた。

更に、平成 21 年度には、主に物納不動産で借地権の付着した財産 について、信託受託者が財産管理業務とあわせて権利者に対する底地 の売却を行う管理処分型信託を導入した。

(3) その他の管理処分手法

- イ 平成 22 年 8 月、「新成長戦略における国有財産の有効活用について」を踏まえ、保育所・介護施設など人々の安心につながる分野における未利用国有地の活用を推進するため、地方公共団体を通じた貸付制度を導入。以降、救急医療など地域医療のための施設整備や、社会福祉法人への直接貸付など、定期借地権を活用した貸付制度の拡大を行ってきた。
- (注) 平成 24 年 10 月までに、世田谷区などの地方公共団体等との間で、28 ヶ所の国有地を社会福祉施設等として活用するとの方針を決定した。(第 44 表)
- ロ 税外収入の確保や管理コストの軽減の観点から、平成24年3月、 売却困難財産や売残財産を対象とした事業用定期借地制度を利用 した貸付けが行えるよう制度の整備を行った。

XI Sales of NTT, JT, and J.alco Stocks

1. NTT Stocks

The Nippon Telegraph and Telephone Corporation (NTT) was established in April 1985 in accordance with the Nippon Telegraph and Telephone Corp. Law (revised in June 1997 as the Act Concerning Nippon Telegraph and Telephone Corporation, etc.; hereinafter referred to as the "NTT Law"). The law placed the now-defunct Nippon Telegraph and Telephone Public Corporation under private management, with the government holding all 15.6 million shares of NTT (with a capital of 780 billion yen and a face value of 50,000 yen).

With the government required to hold at least one-third of NTT's shares under the NTT Act, FILP Special Account Investment Account*1) holds one-third (5.2 million shares) of the NTT shares, and the remaining two-thirds of the shares (10.4 million shares) came to be held by the National Debt Consolidation Fund Special Account, and proceeds from sales of the shares were to be used to redeem government bonds.

The National Debt Consolidation Fund Special Account sold 1.95 million NTT shares in both fiscal 1986 and fiscal 1987, 1.5 million shares in fiscal 1988, 1 million shares in each of fiscal 1998, fiscal 1999, and fiscal 2000, 91,800 shares in fiscal 2002, 85,157 shares in fiscal 2003, 800,000 shares in fiscal 2004, and 1.123.043 shares in fiscal 2005.

As a result, all NTT shares held by the Special Account have been sold FLIP Special Account Investment Account holds 431,070,000 shares following stock splits of 1.02 for 1 in November 1995 and 100 for 1 in January 2009, as well as sell-off of 99,334,200 shares *2) in response to NTT' s acquisitions of its own shares which took place twice in fiscal 2011. (See Table 45.)

- *1) Under the Law on Special Accounts, the Industrial Investment Special Account became FILP Special Account Investment Account in fiscal 2008.
- *2) This is the excess amount of shares which the government was obliged to hold as a result of NTT' s disposition of its own shares in November of 2010 and November of 2011.

2. JT Stocks

Japan Tobacco Inc. (JT) was established in April 1985 under the Japan Tobacco Inc. Law (hereinafter referred to as the "JT Law"), placing the now-defunct Japan Monopoly Corporation under private management. At that time, all of the outstanding 2 million shares of JT (with a capital of 100 billion yen and a face value of 50,000 yen) came to be held by the government.

Initially, the JT Law required the government to hold at least one-half of the shares when JT was established, and more than one-third of all shares issued. Because of this provision, FILP Special Account Investment Account holds one-half of the total shares at the time JT was established (1 million shares). Also, the National Debt Consolidation Fund Special Account held the remaining one-half of the shares (1 million shares). Gains on sales were to be applied to the national debt.

第11 NTT、JT、J. alco株式の売却状況

1. N T T 株式

昭和60年4月、日本電信電話株式会社法(平成9年6月の法律改正により「日本電信電話株式会社等に関する法律」、以下「NTT法」)により、旧電電公社が民営化され日本電信電話株式会社(NTT)が発足し、同時に、同社の発行済株式総数1,560万株(資本金7,800億円、額面5万円)のすべてが政府の保有となった。NTT株式については、NTT法上、政府に3分の1以上の保有義務が課せられており、全体の3分の1に当たる株式(520万株)については財政投融資特別会計投資勘定(※1)が保有し、残りの3分の2に当たる株式(1,040万株)については国債整理基金特別会計が保有し、売却益は国債償還財源に充てることとされた。国債整理基金特別会計保有の株式については、昭和61年度、62年度に各195万株、63年度150万株、平成10年度、11年度、12年度に各100万株、14年度9万1,800株、15年度8万5,157株、16年度80万株、17年度112万3,043株を売却してきた結果、同特別会計保有の株式はすべて売却が完了した。

財政投融資特別会計投資勘定の株式については、株式分割の実施(平成7年11月に1株を1.02株、平成21年1月に1株を100株)及び平成23年度にNTTによる2回の自己株式取得に応じて合計9,933万4,200株(※2)を売却した結果、4億3,107万株となっている(第45表参照)。

- ※1 特別会計に関する法律により、産業投資特別会計は、平成2 0年度以降、「財政投融資特別会計投資勘定」となった。
- ※2 平成22年11月及び平成23年11月にNTTが自己株式消却を 行ったことに伴い生じた政府保有義務超過分。

2. JT株式

昭和60年4月、日本たばこ産業株式会社法(以下「JT法」)により、旧日本専売公社が民営化され日本たばこ産業株式会社(JT)が発足し、同時に、同社の発行済株式総数200万株(資本金1,000億円、額面5万円)のすべてが政府の保有となった。 JT株式については、当初、JT法において、政府にJT設立時の株式総数の2分の1以上かつ発行済株式総数の3分の1超の保有義務が課せられていたため、JT設立時の株式総数の2分の1に

有義務が課せられていたため、JT設立時の株式総数の3分の1起の保 当たる株式(100万株)については財政投融資特別会計投資勘定 が保有。残りの2分の1に当たる株式(100万株)については国債 整理基金特別会計が保有し、売却益は国債償還財源に充てること とされた。 Because the government was required as a transitional measure (under Article 18 of Supplementary Provisions of the JT Law) to hold at least two-thirds of the shares issued when JT was established, the National Debt Consolidation Fund Special Account sold 394,276 shares in fiscal 1994 and 272,390 shares in fiscal 1996. This completed sales of one-third of the total shares issued. Subsequently, in April 2002, the JT Law was partially revised and the abovementioned transitional measure was eliminated. As a result, the Special Account sold off 333,334 shares that fiscal year, followed by 44,000 in fiscal 2003 and 289,334 in fiscal 2004. (This completed sales of half of the total shares issued.)

In December 2011, followed by the enforcement of the Act on Special Measures concerning the securing of financial resources to execute measures necessary for recovery from the Great East Japan Earthquake (including the revision of the JT Law), the government was required to hold more than one third of the total number of shares issued. Transfer of affiliation took place, where out of 5 million shares held by the FLIP Special Account (stock splitting (one stock split into 5 stocks in April 2006)), 1,666,666 shares were transferred to the National Debt Consolidation Fund Special Account, and the gain on sale was applied to the resources for the redemption of reconstruction bonds.

By implementing stock splitting (one stock split into 200 stocks on July 2012) after the transfer, the number of stocks belonging to the FLIP Special Account was 666.6668 million, and the number of stocks belonging to the National Debt Consolidation Fund Special Account was 333.3332 million (See Table 46).

3. J.alco Stocks

In April 2006, the Japan Alcohol Corporation Law (hereinafter called the "J.alco Law") privatized the Alcohol Enterprise Head Office of the New Energy and Industrial Development Organization and established the Japan Alcohol Corporation (J.alco). The government held all 60,000 of the company's issued stocks (capital 3 billion yen).

The J.alco Law did not require the government to hold J.alco stocks. Meanwhile, the Basic Plan on Reducing and Rationalizing National Administrative Organizations (passed by Cabinet resolution in April 1999) required the government to begin selling its shares within two years of the company's establishment, with the aim of selling off all shares as quickly as possible. Accordingly, after discussion and report by the Stock Subgroup of the National Property Subcommittee of the Fiscal System Council in November 2006, the government sold two-thirds of the total issued stock (39,999 shares) through general competitive bidding in March 2008. (See Table 47.)

JT設立時の経過措置(JT法附則第18条)として、政府に当分の間発行済株式総数の3分の2以上の保有義務が課せられていたことから、国債整理基金特別会計保有の株式のうち、平成6年度39万4,276株、8年度27万2,390株を売却した(当該時点における売却(発行済株式総数の3分の1)が完了)。その後、平成14年4月にJT法の一部改正により上記経過措置が廃止されたことに伴い、新たに33万3,334株が売却可能となり、平成15年度4万4,000株、16年度28万9,334株を売却した(当該時点における売却(発行済株式総数の2分の1)が完了)。

平成23年12月、東日本大震災からの復興のための施策を実施するために必要な財源の確保に関する特別措置法(JT法改正を含む)の施行により、政府保有義務は発行済株式総数の3分の1超となり、財政投融資特別会計投資勘定が保有している500万株(株式分割(平成18年4月に1株を5株)を実施)のうち、166万6,666株を国債整理基金特別会計に所属替し、売却益は復興債償還財源に充てることとなった。

なお、所属替後の株式分割実施(平成24年7月に1株を200株) により、財政投融資特別会計投資勘定の株式については6億6,666 万6,800株、国債整理基金特別会計の株式については3億3,333万3, 200株となっている(第46表参照)。

3. J. alco株式

平成18年4月、日本アルコール産業株式会社法(以下「J.alco法」)により、独立行政法人新エネルギー・産業技術総合開発機構アルコール製造部門が民営化され日本アルコール産業株式会社(J.alco)が発足し、同時に、同社の発行済株式総数6万株(資本金30億円)のすべてが政府の保有となった。

J.alco株式については、J.alco法上、政府に保有義務は課されていない。一方、国の行政組織等の減量、効率化等に関する基本的計画(平成11年4月閣議決定)において、政府は設立後2年以内に株式の売却を開始し、できる限り早期に完全売却を図ることとされている。これを踏まえ、財政制度等審議会国有財産分科会株式部会(平成18年11月)での審議・答申を受けて、平成20年3月、発行済株式総数の約3分の2に当たる株式(39,999株)を一般競争入札により売却した(第47表参照)。

Fiscal Year	Government investment	Securities	Total (A)	Total value of national property (B)	Component ratio (A/B)
End of FY2007	633,887	10,952	644,839	1,051,676	61.3
End of FY2008	603,275	7,564	610,839	1,023,690	59.7
End of FY2009	647,076	8,256	655,333	1,073,748	61.0
End of FY2010	643,244	7,217	650,461	1,011,939	64.3
End of FY2011	674,971	6,668	681,639	1,028,543	66.3

- (Note) 1. "Government investment" refers to government financing shares, stocks, etc. acquired by the government as a result of investment in specific corporations based on special laws (including international treaties). "Securities" refer to stocks, etc. acquired by the government as a result of in-kind tax payments, etc.
 - Of the 652.4 billion yen's worth of securities held in fiscal 2009, 666.8 billion yen's worth was held under the auspices of the Special Account for Energy Policy. The ownership of these securities was transferred from the former Japan National Oil Corporation to the government as a result of the abolition of this corporation.
 - 3. As far as listed securities and securities transferred from the former Japan National Oil Corporation, among "government investment" and "securities," are concerned, securities with market prices were evaluated based on the fiscal yearend market prices, and securities without market prices were evaluated based on the value of the fiscal year-end net assets or gross assets minus gross liabilities on the balance sheet of the corporation concerned (however, unlisted "securities" acquired as a result of in-kind tax payments and attributed to the state coffers were evaluated based on the acquisition prices until fiscal 2009, and on the appraised prices as of the end of fiscal 2010.)

(Note 1) These figures represent the status of progress in the disposal of non-administrative properties that belong to the general account of the Ministry of Finance and are classified as unused national land in fiscal 2011. "Unused national land" in this table refers to unused residential land lots or unused land lots planned for residential use excluding those that are problematic for independent use. These include land lots used on a provisional basis, such as those whose management has been consigned to other parties and those that have been leased out. They also include farmland and forested land that can be used for residential development in light of the surrounding environment. The figures in the individual columns may not necessarily add up as a result of factors such as reclassification (e.g. reclassification from "for public use" to "transfer to the private sector")," and division.

The fitures also include those properties that are agricultural land and forest in the present status but their development as residential plots are expected in view of the conditions of the surrounding areas.

- (Note 2) "Properties to be used by local governments, etc." refer to the properties to be transferred to local governments, etc.
- (Note 3) "Properties to be disposed of" refer to the properties to be transferred to the public sector through general competitive bidding (including thoses left unsold through general competitive bidding).

 The figures shown in parentheses in the upper lines refer to the data concerning the properties whose disposal is undecided because of the land readjustment project, local community development project including community redevelopment, etc.
- (Note 4) "Changes due to modifications, etc.," refer to changes due to the change of categories, to the division of accounts, etc., to actual measurements, etc., and to price revisions in the national property register, etc. (Note 5) The value of "property sold by general competitive bidding" within the fiscal year stood at 47.1 billion yen.
